

Sharp blades

for a clean swipe

Volkswagen Original
Parts. Service. Accessories.

Did you know?

- Wiper blades contribute significantly to traffic safety. Nevertheless, no other safety-related component receives so little attention.
- The rear wiper blade wears out just like the front wiper blades. All wiper blades should be changed at the same time.
- Wiper blades put in an impressive performance. The average wiper blade travels roughly 800 km across the surface of the windshield every six months.
- Solar radiation, ozone and other environmental factors cause the rubber of every wiper blade to eventually become porous, cracked and hardened.
- Tough insect residue on the windshield, as well as ice and freezing temperatures in the wintertime, can damage the fine edge of the wiper blade.
- When wiper blades are damaged, they leave streaks or a dirty film on the windshield, and can squeak or skip across the glass. At this point, the wiper blades should be changed immediately.

Volkswagen Original Wiper Blades ...

- ... wipe away all types of precipitation no matter what the temperature, without leaving streaks on the windshield.
- ... ensure an even contact pressure thanks to their precision-made flex rails, which are perfectly adapted to the curvature of the windshield.
- ... provide consistent effectiveness throughout their entire service life.
- ... operate extremely smoothly and evenly. They do not skip on the glass or squeak, thanks to their rubber backing and an exceptionally smooth glide coating.
- ... are effective even at high speeds thanks to their aerodynamic shape.
- ... can withstand extremely harsh winter weather thanks to the use of outstanding cold-resistant materials.

Volkswagen Original Wiper Blades – Your Benefits

- + Perfect cleaning performance in any weather
- + Consistent effectiveness
- + Smooth operation, without skipping on the glass or squeaking
- + Fully operational at all speeds
- + Suitable for severe winter weather

Insist on **Volkswagen Original**

Parts. Service. Accessories.

Why?

Only Volkswagen Original parts are engineered specifically for your vehicle. No retrofitting required. No modifications needed. Just the right part for your car at the right price – German-engineered, and built to last.
